RIDHO ADITA ROSMAN EKA PUTRA

+6285251703089 | ridhoaditya925@gmail.com | https://www.linkedin.com/in/ridhoadityarosman/ | https://idoo0.github.io/personal-page/

Computer Science undergraduate with hands-on experience building and maintaining production-ready software systems through internships, research projects, and team-based development. Proficient in Python and backend development, with a solid foundation in core computer science concepts, clean and maintainable code practices, and system design fundamentals. Experienced collaborating with cross-functional teams to deliver reliable features, refactor legacy systems, and improve code quality. Highly curious, fast learner, and passionate about crafting scalable, high-impact software that delivers real value to users.

WORK EXPERIENCES

PKM (Student Creativity Program) led by Kemendiktisaintek May 2025 - Dec 2025

Funded Awardee

- Selected as a PKM research funded awardee, advancing to PIMNAS (National Student Scientific Week) from 33,039 proposals and earning 3rd place (Bronze Medal).
- Collaborated with a 5-member interdisciplinary team to develop NEUROKIT, a multimodal neurotherapeutic learning toolkit, improving student attention by 11.64%.
- Designed and implemented 5 core NEUROKIT features as an AI and Mobile Engineer, integrating AIoT hardware, Gemini LLM, and Flutter.

Genera-Z Berbakti Program led by BCA - Berau, Indonesia Jul 2025 - Aug 2025

Funded Awardee

- Selected as a program funded awardee from 250+ proposals, leading a 28-day technology-driven community service initiative in Derawan Island, East Kalimantan.
- Executed 20+ community empowerment programs and deployed AIoT and mobile-based solutions, contributing to a Social Return on Investment (SROI) score of 2.64.
- Led the development of two flagship innovations: an IoT-based automatic waste sorting system and a Flutter app with Gemini LLM-powered chatbot for stunting monitoring.

Bangkit led by Google, Goto, and Traveloka - Jakarta, Indonesia Sep 2025 - Dec 2025

Machine Learning Cohort Participant

- Selected as 1 of 4,646 participants from 45,841 applicants for Bangkit Academy, completing ~900 hours of intensive Machine Learning training.
- Collaborated with a 6+ member team to develop a CNN-based plant disease detection model with a ResNet backbone, achieving 77% classification accuracy.

PT. Aplikasi UNIQ Indonesia - Yogyakarta, Indonesia Sep 2024 - Dec 2024

AI/ML Engineer Intern

- Developed two core AI features, a hybrid recommendation system and an agentic AI chatbot, integrating Qdrant vector database for semantic retrieval.
- Built a hybrid recommendation system combining collaborative and content-based filtering, processing 200,000+ user transactions while optimizing performance and memory usage.
- Designed and implemented an agentic AI chatbot using Chainlit with five specialized agents (RAG, SQL, visualization, FAQ, custom) for extensible interactions.

PT. Berbinar Insightful Indonesia - Surabaya, Indonesia Apr 2024 - Oct 2024

Back End Engineer Intern

- Developed and delivered 6+ backend features for Berbinar web applications, including intern registration, CRUD-based content management, and refactored legacy database models to improve maintainability.
- Designed and implemented backend systems for 5 psychological tests with distinct evaluation logic using PHP and Laravel, collaborating with a team of 8+ developers and clean code practices.

EDUCATION

Universitas Sam Ratulangi - Manado, Indonesia Aug 2022 - Aug 2026

Bachelor of Informatic Engineering, 3.98/4.00

- Course Related: Algorithm and Programming, Software Development, Web Development, Database Technology, Machine Learning, Big Data, Artificial Intelligence, Discrete Mathematics.
- Organizations: Committee of the UNSRAT IT Community and Vice Chairman of the GENIA Scientific Reasoning Student Club and Staff of HME (Electrical Engineering Student Association)

HONOR AND AWARDS

3rd Place (Bronze Medal), National Science Student Week (PIMNAS) 2025 - Nov 2025
Ministry of Higher Education, Science and Technology of Indonesia (Kemendiktisaintek)

Honorable Mention, ICPC Asia Jakarta Regional Contest 2025 - Nov 2025
International Collegiate Programming Contest (ICPC) Foundation

Finalist, Qur'an Application Design (DAQ) Category - MTQMN 2025 - Oct 2025
Ministry of Higher Education, Science and Technology of Indonesia (Kemendiktisaintek)

Honor Award and Golden Ticket Winner, Indonesia National Contest (INC) 2025 - Oct 2025
International Collegiate Programming Contest (ICPC) Foundation

The Winner, Derawan Island - Genera-Z Berbakti Community Service Program - May 2025
Bank Central Asia (BCA)

2nd Winner of BI PIDI Digdaya x Hackathon - Sep 2026
Bank Indonesia

SKILLS AND CERTIFICATIONS

- **Soft Skills** : Analytical problem solving, Software craftsmanship mindset, Cross- functional collaboration, Clear technical communication & documentation, Ownership and accountability, High learning agility & adaptability
- **Hard Skills** : Python, PHP, JavaScript, C++ (intermediete), SQL (basic), Data structures & algorithms fundamentals, Clean code principles, RESTful API development, Backend system design basics, Debugging & refactoring, Git (version control), Docker (containerization), Basic CI/CD concepts, Data processing pipelines, Input validation, Logging and error handling
- **Language**: Bahasa (native), English (professional)
- **Software Engineer - HackerRank** (2025)
- **Problem Solving (Intermediate) - HackerRank** (2025)
- **TensorFlow Developer - DeepLearning.AI** (2024)
- **Machine Learning - Stanford University x DeepLearning.AI** (2024)
- **Python for Data Science, AI & Development - IBM** (2024)
